PROFILE SUMMARY

Third-year BSc (Hons) in IT undergraduate at SLIIT, specializing in Cybersecurity, seeking an entry-level cybersecurity internship. Intermediate knowledge of security operations, networking, and access control principles, with hands-on Python/C/Java programming and Linux/UNIX scripting experience. Comfortable working independently, documenting findings clearly, and picking up new tools quickly.

EDUCATION

BSc (Hons) in Information Technology, Specializing in Cybersecurity

SLIIT (Sri Lanka Institute of Information Technology)

- 3rd Year undergraduate; expected graduation 2028

GCE Advanced Level - Royal International School, Kurunegala

PROJECTS

Personal Cybersecurity Toolkit

Independent Project | Python, Linux

- Built and tested a port scanner module in Python on a Linux environment as the first component of a broader security toolkit
- Actively expanding the toolkit with additional modules covering further security-assessment tasks

Personal Portfolio Website | GitHub Pages

- Designed and deployed a personal portfolio site to showcase my background, resume, and contact details

CERTIFICATIONS & COURSEWORK

- Google — Foundations of Cybersecurity (Coursera) — completed August 2026

TECHNICAL SKILLS

- Security Operations: alert triage fundamentals, SOC concepts, incident-response basics
- Networking & Systems: core networking concepts, encryption and access control fundamentals, Linux/UNIX administration and scripting
- Programming: Python, Java, C
- Vulnerability Management: exposure to scanning and remediation tracking through independent project work
- Familiarity with governance, risk, and compliance (GRC) concepts and interest in frameworks such as SOC 2 and NIST 800-53

ADDITIONAL SKILLS

- Strong written and verbal communication; able to document processes and findings clearly
- Quick learner, comfortable asking questions and working independently in fast-paced settings
